

It's your healthcare system How do **YOU** want it to look?

- *Do you find the healthcare system confusing to navigate?*
- *Would you like easier access to the services you need?*
- *Do you want to feel more informed?*
- *Do you want to have a voice in making improvements?*

If you answered yes to any of these questions, please consider joining our patient and caregiver working group!

As you may have read in the news, the **System Coordinated Access** program in the Waterloo Wellington region is designing a new **electronic referral system and patient portal** that will make it easier for you and your healthcare providers to know what services are available and how you can access them.

We're putting together a working group of patients and caregivers to help us create a tool that works for you!

What's involved?

You'll meet with our design team on a bi-monthly basis for approximately two hours to test the tool and give your input. Travel expenses will be compensated.

If you are interested, please get in touch:
